Re: IRB proposal 20260061, “Voice Recordings for an AI Voice-Agent Security Study”

Date: June 29, 2026

The IRB has reviewed the materials you submitted related to proposal 20260061 entitled, “Voice Recordings for an AI Voice-Agent Security Study.” Based on the information you provided, this project does not constitute human subjects research as defined by the U.S. Department of Health and Human Services (45CFR46). It is thus not subject to SEMO IRB review or oversight.

Please note that your project may be subject to other ethical, legal, and institutional guidance or regulations. Researchers are responsible for ensuring that all applicable guidance and regulations are followed and that all appropriate permissions are obtained over the course of the research process.

If your project protocol is modified in a way that might change the above determination, you are required to contact the IRB immediately at irb@semo.edu for advice/instructions.
